

Temporary Stop

Press and hold the **green SEND** button for **3 seconds**.

- It is important to notify Race Control if you make a safe stop lasting several minutes (for example, if you need to carry out mechanical repairs).

Medical Emergency

Press and hold the **red RESCUE** button for **3 seconds**.

- Use this function to report a medical emergency involving yourself or another competitor.
- The **RESCUE** LED turns red once the alert has been sent.
